Software Development for SAP

R/3® Ulrich Mende,2012-12-06 The use of commercial standard software is increasing in importance throughout the world

With its R 3 product SAP AG has brought the package on the market that provides the most comprehensive functionality

When standard solutions are used there is a priori a conflict of aims between what the standard offers and the company

specific requirements SAP counters this in the R 3 System by building a modular software that can be customized to meet the

customer requirements However many users still see themselves forced to make in house developments to various degrees

to fit the R 3 System Here they can use the ABAP Workbench that SAP supplies with every system The present book targets

those persons who need to perform these customer oriented supplementary developments It leads the reader through the

fundamentals of software development within the R 3 System using the ABAP Workbench These principles differ from other

development environments in particular through their complexity and the close integration with the R 3 System Because an

installation for testing and training purposes on the PC at home is not an option I considered a structured understandable
