At Work With Grotowski On Physical Actions:

At Work with Grotowski on Physical Actions Thomas Richards, 1995 An account of Grotowski's recent work on the principles of performance With a preface and an essay From the theatre company to art as vehicle by Jerzy Grotowski **At Work with Grotowski on Physical Actions** Thomas Richards, 2003-09-02 I consider this book a precious report that permits one to assimilate some of those simple and basic principles which the self taught at times come to know yet only after years of groping and errors The book furnishes information regarding discoveries which the actor can understand in practice without having to start each time from zero Thomas Richards has worked with me systematically since 1985 Today he is my essential collaborator in the research dedicated to Art as Vehicle from the Preface by Jerzy Grotowski *Grotowski, Women, and Contemporary Performance* Virginie Magnat, 2013-09-11 As the first examination of women's foremost contributions to Jerzy Grotowski's cross cultural investigation of performance this book complements and broadens existing literature by offering a more diverse and inclusive re assessment of Grotowski's legacy thereby probing its significance for contemporary performance practice and research Although the particularly strenuous physical training emblematic of Grotowski's approach is not gender specific it has historically been associated with a masculine conception of the performer incarnated by Ryszard Cieslak in *The Constant Prince* thus overlooking the work of Rena Mirecka Maja Komorowska and Elizabeth Albahaca to name only the leading women performers identified with the period of theatre productions This book therefore redresses this imbalance by focusing on key women from different cultures and generations who share a direct connection to Grotowski's legacy while clearly asserting their artistic independence These women actively participated in all phases of the Polish director's practical research and continue to play a vital role in today's transnational community of artists whose work reflects Grotowski's enduring influence Grounding her inquiry in her embodied research and on going collaboration with these artists Magnat explores the interrelation of creativity embodiment agency and spirituality within their performing and teaching Building on current debates in performance studies experimental ethnography Indigenous research global gender studies and ecocriticism the author maps out interconnections between these women's distinct artistic practices across the boundaries that once delineated Grotowski's theatrical and post theatrical experiments The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license **Rethinking Religion in the Theatre of Grotowski** Catharine Christof, 2017-03-27 This book opens a new interdisciplinary frontier between religion and theatre studies to illuminate what has been seen as the religious or spiritual nature of Polish theatre director Jerzy Grotowski's work The central argument is that through an embodied materialist approach to religion and through a critical reading of the concepts of the New Age a new understanding of Grotowski and religion can be developed This is a vital reference for academics in both Religion and Theatre Studies that have an interest in the spiritual aspects of Grotowski's work

Encountering Ensemble John Britton, 2013-12-02 Encountering Ensemble is a text for students teachers researchers and practitioners who wish to develop a deeper understanding of the history conceptual foundations and practicalities of the world of ensemble theatre It is the first book to draw together definitions and practitioner examples making it a cutting edge work on the subject Encountering Ensemble combines historical and contemporary case studies with a wide range of approaches and perspectives It is written collaboratively with practitioners and members from the academic community and is divided into three sections 1 Introduction and an approach to training ensembles 2 Practitioner case studies and analysis of specific practical approaches to training ensembles or individuals in an ensemble context 3 Succinct perspectives from practitioners reflecting on a range of questions including What is an ensemble the place of ensemble in the contemporary theatre landscape and training issues

The Unwritten Grotowski Kris Salata, 2013-05-07 This book gives a new view on the legacy of Jerzy Grotowski 1933 1999 one of the central and yet misunderstood figures who shaped 20th century theatre focusing on his least known last phase of work on ancient songs and the craft of the performer Salata posits Grotowski s work as philosophical practice and more particularly as practical research in the phenomenology of being arguing that Grotowski s departure from theatrical productions and thus critical consideration resulted from his uncompromising pursuit of one central problem What does it mean to reveal oneself the very question that drove his stage directing work The book demonstrates that the answer led him through the path of gradually stripping the theatrical phenomenon down to its most elemental aspect which shows itself through the craft of the performer as a non representational event This particular quality released at the heights of the art of the performer is referred to as aliveness or true liveness in this study in order to shift scholarly focus onto something that has always fascinated great theatre practitioners including Stanislavski and Grotowski and of which academic scholarship has limited grasp Salata s theoretical analysis of aliveness reaches out to phenomenology and a broad range of post structural philosophy and critical theory through which Grotowski s project is portrayed as philosophical practice

Actor Training Alison Hodge, 2010-01-29 Presents an introduction to how actor training shapes modern theatre

Crossing

Cultural Borders Through the Actor's Work Cláudia Tatinge Nascimento, 2008-07-21 This book redirects the intercultural debate by privileging the actor's creative process. Original interviews illuminate how the intersection of technique, memory and imagination manifests in actor training and intercultural performance. Ultimately, this study reassesses the meanings of intercultural embodiment onstage.

What a Body Can Do Ben Spatz, 2015-03-05 In *What a Body Can Do*, Ben Spatz develops for the first time a rigorous theory of embodied technique as knowledge. He argues that viewing technique as both training and research has much to offer current debates over the role of practice in the university, including the debates around practice as research. Drawing on critical perspectives from the sociology of knowledge, phenomenology, dance studies, enactive cognition and other areas, Spatz argues that technique is a major area of historical and ongoing research in physical culture, performing arts and everyday life.

Theatre and Boxing Franco Ruffini, 2023-08-25 *Theatre and Boxing* focuses on a problem which is of paramount importance for any theatre practitioner and researcher: the actor's believable body. This problem has been taken up by Stanislavski, Meyerhold, Artaud, Brecht, Decroux, Copeau, Grotowski and many others. It is an essential hurdle for all who practice the theatrical craft or want to study it theoretically. This hurdle can be considered one of the foundations of theatre science and of the relationship between technique, politics and ethics. This book tells the story of a revolution in the work of the actor in the early and mid 20th century, a period in which the focus of theatrical interest shifted from the emotions to the body. The actor's body became a tool for purveying a dynamic set of actions which often transformed the very actor himself. This new centrality of the body also drew attention to those places in which the body is central: the gym, the boxing ring and the circus, with its trapezes and tightropes, became together with the stage laboratories for the theatre. Thus, in addition to the reformers of the theatre, the pages of this book are filled with boxers, acrobats, gymnasts and wrestlers, pursuers of an utopia: the actor who flies.

Voices from Within: Grotowski's Polish Collaborators Paul Allain, Grzegorz Ziółkowski, 2015-01-01 *Voices from Within: Grotowski's Polish Collaborators* brings together for the first time in English the distinctive voices of renowned director Jerzy Grotowski's Polish colleagues, providing a rare insight into different areas of their research and work. Through conversations, recollections, journal entries, images, working notes and other testimonies, the collection opens up a range of perspectives on this changing practice, both within and beyond the theatre, from the actors, artists, designers, producers, administrators and investigators who co-created it. The book spans the full period of Grotowski's career, from the theatre of productions phase through paratheatre and Theatre of Sources to the final phase of Art as vehicle following his emigration from Poland. What emerges from these narratives is a genuinely collaborative endeavour that, as Grotowski himself comments within a note distributed with the Laboratory Theatre's touring productions, is often mistakenly associated with his name and his name alone. *Voices from Within* makes an important contribution to international understanding of this work by offering a multi-vocal insiders' account of the collective and individual searches, uncertainties, discoveries and experiences that accompanied many of Grotowski's long-time creative partnerships.
