Family Law International Society on Family Law. World Conference, 2003-04-10 Papers from the 10th International Society of Family Law Conference covering the resolution of disputes and current pressures on family law State of the World's Children, 2009 On 20 November 2009 the global community celebrates the 20th anniversary of the adoption by the United Nations General Assembly of the Convention on the Rights of the Child the unique document that sets international standards for the care treatment and protection of all individuals below age 18 To celebrate this landmark the United Nations Children's Fund is dedicating a special edition of its flagship report The State of the World's Children to examining the Convention's evolution progress achieved on child rights challenges remaining and actions to be taken to ensure that its promise becomes a reality for all children The statistical tables presented in this volume assist in meeting the demand for timely reliable comparable and comprehensive data on the state of the world's children **Handbook of Children's Rights** Martin D. Ruck, Michele Peterson-Badali, Michael Freeman, 2016-12-08 While the notion of young people as individuals worthy or capable of having rights is of relatively recent origin over the past several decades there has been a substantial increase in both social and political commitment to children's rights as well as a tendency to grant young people some of the rights that were typically accorded only to adults In addition there has been a noticeable shift in orientation from a focus on children's protection and provision to an emphasis on children's participation and self determination With contributions from a wide range of international scholars the Handbook of Children's Rights brings together research theory and practice from diverse perspectives on children's rights This volume constitutes a comprehensive treatment of critical perspectives concerning children's rights in their various forms Its contributions address some of the major scholarly tensions and policy debates comprising the current discourse on children's rights including the best interests of the child evolving capacities of the child states rights versus children's rights rights of children versus parental or family rights children as citizens children's rights versus children's responsibilities and balancing protection and participation In addition to its multidisciplinary focus the handbook includes perspectives from social science domains in which children's rights scholarship has evolved largely independently due to distinct and seemingly competing assumptions and disciplinary approaches e.g childhood studies developmental psychology sociology of childhood anthropology and political science The handbook also brings together diverse methodological approaches to the study of children's rights including both quantitative and qualitative perspectives and policy analysis This comprehensive cosmopolitan and timely volume serves as an important reference for both scholarly and policy driven interest in the voices and perspectives of children and youth Application of International Labour Standards 2009 (I), 2009 Report of the Committee of Experts on the Application of Conventions and Recommendations (articles 19, 22 and 35 of the Constitution) International Labour Conference, International Labour Office.
