Math for Healthcare Professionals: Dosage Calculations and Fundamentals of

Medication Administration Nancy DiDona, 2010-10-22 Math for Healthcare Professionals Dosage Calculations and Fundamentals of Medication Administration builds upon a student's existing basic math skills and teaches them the more complex solving calculations that are representative of today's healthcare practice. The foundation for learning to calculate dosages and intravenous administration will be based on the ratio and proportion model which also adapts to the dimensional Analysis method, an increasingly popular method as dosage calculations are universalized. Math for Healthcare Professionals contains diagnostic test questions at the beginning of each chapter, sample questions throughout each chapter, and diagnostic test questions at the end of each chapter to analyze proficiency of that subject matter. The print book includes a CD-ROM with additional practice questions.

How to Master Nursing Calculations Chris John Tyreman, 2010-09-03 To promote safe practice, nursing schools test for basic arithmetic both at interview stage and during the 3 years of nurse training. *How to Master Nursing Calculations* will help you to cope with these tests, offering a step-by-step approach which will take you from base level knowledge to competency both in drug calculations and the ability to read drug dosage charts. The book begins with a helpful diagnostic section which will help you to identify your strengths and weaknesses before going on to cover basic numeracy. The book goes on to deal with drug dosage calculations and prescription awareness questions at both basic and more advanced levels. It features clear illustrations showing how to read instrument scales, medical admin records, and pharmaceutical labels. Combining drug dosage charts, a chapter on drug administration including a list of abbreviations and their meanings, mock tests with answers and full explanations. *How to Master Nursing Calculations* will be an essential asset during your years as a trainee nurse and beyond.
