the Cold War peace operations have become the core focus of many Western armed forces. In these operations the division between civil and military responsibilities often rapidly blurs. Among policy makers and in military circles a debate has erupted regarding the scope of the military in stabilizing and reconstructing war torn societies. Should soldiers who primarily prepare for combat duties observe a strict segregation between the military sphere and the civilian sphere or become involved in nation building? Should soldiers be allowed to venture into the murky arena of public security, civil administration, humanitarian relief and political and social reconstruction? In *Soldiers and Civil Power* Thijs Brocades Zaalberg draws on military records and in depth interviews with key players to examine international operations in the 1990s in Cambodia, Somalia, Bosnia and Kosovo. Focusing his historical analysis on the experiences of various battalions in the field, he reveals large gaps between this tactical level of operations, political strategic decision making and military doctrine. By comparing peace operations to examples of counterinsurgency operations in the colonial era and military governance in World War II, he exposes the controversial but inescapable role of the Western military in supporting and even substituting civil authorities during military interventions. At a time when US forces and its allies struggle to restore order in Iraq and Afghanistan, Brocades Zaalberg's in depth study is an invaluable resource not only for military historians but anyone interested in the evolving global mission of armed forces in the twenty first century.

The U.S. Military Intervention in Panama:

Operation Just Cause, December 1989-January 1990 Lawrence A. Yates, 2014. This is a shocking and gripping story of an American GI's six months at the Guantanamo Bay detainee camp where he served as an Arabic translator and took part in the interrogations of the Muslim prisoners. *Basic Documents about the Treatment of the Detainees at Guantánamo and Abu Ghraib* W. Frederick Zimmerman, 2004. The book contains six basic substantive documents which provide essential information and context: Major General Antonio M. Taguba's summary of his initial investigation of reported abuses at Abu Ghraib, the Taguba Report, The Geneva Convention Relative to the Treatment of Prisoners of War, The Geneva Convention Relative to the Protection of Civilian Persons in Time of War, The opinions by the Supreme Court of the United States in *Rasul v. Bush*, The opinions by the Supreme Court of the United States in *Hamdi v. Rumsfeld* and The opinions by the Supreme Court of the United States in *Rumsfeld v. Padilla*. Every citizen of the United States and the world should read these documents in their entirety. Every library should have a copy of this book. *Military Culture and Education* Douglas Higbee, 2016-04-22. While studies of American military culture have proliferated in recent years and the culture of academic institutions has been a subject of perennial interest, comparatively little has been written

on the multiple ways the military and academe intersect Focusing on this subject offers an opportunity to explore how teachers and researchers straddle the two quite different cultures The contributors to this volume both embody and articulate how the two cultures co exist and cooperate however unevenly at times Chapters offer both ground level perspectives of the classroom and campus as well as well considered articulations of the tensions and opportunities involved in teaching and training civic minded soldiers on issues especially important in the post 9 11 world Commerce Business Daily ,1998-05 Human Rights and War Through Civilian Eyes Thomas W. Smith,2016-10-12 International lawyers and ethicists have long judged wars from the perspective of the state and its actions developing international humanitarian law by asking such questions as Are the belligerents justified in entering the conflict and How should they conduct themselves during the war s execution and When civilian noncombatants are harmed who is responsible for their suffering Human Rights and War Through Civilian Eyes reimagines the ethics of war from the standpoint of its collateral victims focusing on the effects of war on individuals on those who are terrorized or killed or whose lives are violently disrupted Upholding a human rights analysis of war Thomas W Smith conveys vividly the depth of human loss and the narrowing of everyday life brought about by armed conflict Through riveting case studies of the Iraq War and the recent Gaza conflicts Smith shows how even combatants who profess to follow the laws of war often engage in appalling violence and brutality cutting short civilian lives ruining economies rending social fabrics and collapsing public infrastructure A focus on the human dimension of warfare makes clear the limits of international humanitarian law and underscores how human rights perspectives increase its efficacy At a moment when liberal states are rethinking the ethics of war as they seek to extricate themselves from unjust or unwise conflicts and taking on the responsibility to intervene to protect vulnerable people from slaughter Human Rights and War helps us see with bracing clarity the devastating impact of war on innocent people
