Leona Toker, 2019-08-28 A literary scholar examines survival narratives from Russian and German concentration camps shedding new light on testimony in the face of evil In this illuminating study Leona Toker demonstrates how Holocaust literature and Gulag literature provide contexts for each other especially how the prominent features of one shed light on the veiled features and methods of the other Toker s analysis concentrates on the narrative qualities of the works as well as how each text documents the writer s experience in a form where fictionalized narrative can double as historical testimony Toker also views these texts against the background of historical information about the Soviet and the Nazi regimes of repression Writers at the center of this work include Varlam Shalamov Primo Levi Elie Wiesel and Ka Tzetnik and others including Aleksandr Solzhenitsyn Evgeniya Ginzburg and Jorge Sempr n illuminate the discussion Toker also provides context for references to potentially obscure historical events and shows how they form new meaning in the text [This is Home Now](#)

Arwen Donahue, 2009-06-26 A look at the lives of nine Jewish Holocaust survivors after their liberation from Nazi concentration camps when they settled in rural Kentucky At the end of World War II many thousands of Jewish Holocaust survivors immigrated to the United States from Europe in search of a new beginning Most settled in major metropolitan areas usually in predominantly Jewish communities where proximity to coreligionists offered a measure of cultural and social

support. However, some survivors settled in smaller cities and rural areas throughout the country, including in Kentucky, where they encountered an entirely different set of circumstances. Although much scholarship has been devoted to Holocaust survivors living in major cities, little has been written about them in the context of their experiences elsewhere in America. *This Is Home Now: Kentucky's Holocaust Survivors Speak* presents the accounts of Jewish survivors who resettled outside of the usual major metropolitan areas. Using excerpts from oral history interviews and documentary portrait photography, author Arwen Donahue and photographer Rebecca Gayle Howell tell the fascinating stories of nine of these survivors in a unique work of history and contemporary art. The book focuses on the survivors' lives after their liberation from Nazi concentration camps, illuminating their reasons for settling in Kentucky, their initial reactions to American culture, and their reflections on integrating into rural American life. Praise for *This Is Home Now*: Until Donahue and Howell turned their recorders and cameras on these well-chosen survivors living in Kentucky, no one had taken the time to ask how these solitary transplants made new lives for themselves and their children in rural middle America. The stories and images reproduced in this book are both moving and arresting. We owe Donahue and Howell a great debt for rescuing them before they disappeared down the trapdoor of historical memory. Lawrence N. Powell, author of *Troubled Memory*. Anne Levy, the Holocaust and David Duke's Louisiana. Each of the stories can stand on its own as a fascinating example of what has transpired for Jews outside of New York City. David Wallace, Community Jewish Community Association of Louisville. *This Is Home Now* focuses on the overlooked stories of Holocaust survivors who relocated to the commonwealth. Lexington Herald Leader. *Essays on Hitler's Europe*. István Deák, 2001-01-01. István Deák is one of the world's most knowledgeable and clearheaded authorities on the Second World War, and for decades his commentary has been among the most illuminating and influential contributions to the vast discourse on the politics, history, and scholarship of the period. Writing chiefly for the *New York Review of Books* and the *New Republic*, Deák has crafted review essays that cover the breadth and depth of the huge literature on this ominous moment in European history when the survival of democracy and human decency were at stake. Collected here for the first time, these articles chart changing reactions and analyses by the regimes and populations of Europe and reveal how postwar governments, historians, and ordinary citizens attempt to come to terms with or to evade the realities of the Holocaust, war, fascism, and resistance movements. They track the acts of scoundrels and the collusion of ordinary citizens in the so-called Final Solution, but also show how others in authority and on the street heroically opposed the evil of the day. With its depth, conciseness, and interpretive power, this collection allows readers to consider more clearly and completely than ever before what has been said, how thought has shifted, and what we have learned about these momentous world-changing events. **The Holocaust and World War II**. Wendy Koenig, Nancy Rupprecht, Nancy E. Rupprecht, 2012-12-19. *The Holocaust and World War II: In History and In Memory* is a thematic volume of nineteen articles based on papers presented at the 9th Middle Tennessee State University International Holocaust Studies Conference in

Cases of the Reincarnation Type Ian Stevenson, M.D., 2015-09-02 Many cultures accept that a person may die and then come back to life in another form but Westerners have traditionally rejected the idea Recently however surveys conducted in Europe indicate a substantial increase in the number of Europeans who believe in reincarnation and numerous claims of reincarnation have been reported This book examines particular cases in Europe that are suggestive of reincarnation The first section provides a brief history of the belief in reincarnation among Europeans The second section considers eight cases from the first third of the twentieth century that were not independently investigated but were reported and sometimes published by the persons concerned The third section covers 32 cases from the second half of the twentieth century that were investigated by the author Many of these cases involved either children who exhibited unusual behavior attributed to a previous life or adults who experienced recurrent or vivid dreams attributed to a previous life In the fourth section the author compares European cases suggestive of reincarnation with those of other countries and cultures

Legacies of Dachau Harold Marcuse, 2001-03-22 Auschwitz Belsen Dachau These names still evoke the horrors of Nazi Germany around the world This 2001 book takes one of these sites Dachau and traces its history from the beginning of the twentieth century through its twelve years as Nazi Germany's premier concentration camp to the camp's postwar uses as prison residential neighborhood and finally museum and memorial site With superbly chosen examples and an eye for telling detail Legacies of Dachau documents how Nazi perpetrators were quietly rehabilitated to become powerful elites while survivors of the concentration camps were once again marginalized criminalized and silenced Combining meticulous archival research with an encyclopedic knowledge of the extensive literatures on Germany the Holocaust and historical memory Marcuse unravels the intriguing relationship between historical events individual memory and political culture to offer a unified interpretation of their interaction from the Nazi era to the twenty first century

Demonising the Other Philip Whitehead, 2018-01-31 Throughout history societies have established others groups often defined through differences of culture race gender or class that have been demonized by the majority In this book Philip Whitehead challenges the idea that such demonization is an inevitable fact of life He lays out the historical criminalization of the other and looks closely at modern attempts to prevent it through changes to criminal justice systems ultimately questioning whether such approaches can be effective at altering the conditions of existence that are responsible for the creation of the other

Ritual as a Missing Link J. David Knottnerus, 2016-01-08 Up to now ritual has been under utilised for studying human behaviour This book narrows the gap in our understanding of the social causes and consequences of our actions by focusing on the ritualised behaviours that define much of our daily lives Knottnerus breaks new ground by comprehensively describing structural ritualistic theory He shows how structural reproduction has occurred throughout the world how rituals can be strategically used and how power can influence rituals and how the disruption and reconstitution of ritual is of crucial importance for human beings This book shows that ritual provides a missing link in sociology and helps us better explain the extreme complexity of human action and social reality

Jews, Germans, and Allies Atina Grossmann, 2009-08-10 In the immediate aftermath of World War II more than a quarter million Jewish survivors of the Holocaust lived among their defeated persecutors in the chaotic society of Allied occupied Germany Jews Germans and Allies draws upon the wealth of diary and memoir literature by the people who lived through postwar reconstruction to trace the conflicting ways Jews and Germans defined their own victimization and survival comprehended the trauma of war and genocide and struggled to rebuild their lives In gripping and unforgettable detail Atina Grossmann describes Berlin in the days following Germany's surrender the mass rape of German women by the Red Army the liberated slave laborers and homecoming soldiers returning political exiles Jews emerging from hiding and ethnic German refugees fleeing the East She

chronicles the hunger disease and homelessness the fraternization with Allied occupiers and the complexities of navigating a world where the commonplace mingled with the horrific Grossmann untangles the stories of Jewish survivors inside and outside the displaced persons camps of the American zone as they built families and reconstructed identities while awaiting emigration to Palestine or the United States She examines how Germans and Jews interacted and competed for Allied favor benefits and victim status and how they sought to restore normality in work in their relationships and in their everyday encounters Jews Germans and Allies shows how Jews were integral participants in postwar Germany and bridges the divide that still exists today between German history and Jewish studies

On Listening to Holocaust Survivors: Beyond Testimony Henry Greenspan, 2010-11 Challenges conventional wisdom and wisely transforms the process of discerning and responding to what survivors of the Holocaust and other genocides have to say

Everyday Evils Coline Covington, 2017-01-20 Everyday Evils takes a psychoanalytic look at the evils committed by ordinary people in different contexts from the Nazi concentration camps to Stockholm Syndrome to the atrocities publicized by Islamic State and presents new perspectives on how such evil deeds come about as well as the extreme ways in which we deny the existence of evil Concepts of group behaviour morality trauma and forgiveness are reconsidered within a multi disciplinary framework The psychodynamics of dissociation and the capacity to witness evil acts while participating in them raise questions about the origin of morality and about the role of the observing ego in maintaining psychic equilibrium Coline Covington examines how we demonize the other and how violent actions become normalized within communities such as during the Rwandan genocide and Polish pogroms The recent attraction of the millenarian theocracy of the Islamic State also highlights our fascination with violence and death Covington emphasizes that evil comes about through a variety of causes and is highly contextual It is our capacity to acknowledge the evils we live with witness and commit that is vital to how we manage and respond to violence within ourselves and others and in mitigating our innate destructiveness In conclusion the book addresses how individuals and societies come to terms with evil along with the problematic concept of forgiveness and the restoration of good Everyday Evils blends psychoanalytic concepts together with the disciplines of sociology history anthropology philosophy theology and studies of violence in order to develop a richer deeper and more comprehensive understanding of evil Intending to make the unthinkable thinkable this book will appeal to scholars from across those disciplines as well as psychoanalysts psychotherapists and anyone who has ever asked the question How could anyone do something like that

On Listening to Holocaust Survivors Henry Greenspan, 1998-09-30 How do Holocaust survivors find words and voice for their memories of terror and loss This landmark book presents striking new insights into the process of recounting the Holocaust While other studies have been based typically on single interviews with survivors this work summarizes twenty years of the author's interviews and reinterviews with the same core group In this book therefore survivors recounting is approached not as one time testimony but as an ongoing deepening conversation Listening to

survivors so intensively we hear much that we have not heard before We learn for example how survivors perceive us their listeners and the impact of listeners on what survivors do in fact retell We meet the survivors themselves as distinct individuals each with his or her specific style and voice As we directly follow their efforts to recount we see how Holocaust memories challenge their words even now burdening survivors speech distorting it and sometimes fully consuming it It is not a story insisted one survivor about his memories It has to be made a story On Listening to Holocaust Survivors shows us both the ways survivors can make stories for the not story they remember and just as important the ways they are not able to do so
