The Screenwriter's Workshop J. Mira Kopell, 2023-10-20 Through a series of carefully designed writing workshops this book guides the screenwriter through the messy creativity of screenwriting Drawing on over 20 years experience facilitating screenwriting workshops author J Mira Kopell provides readers with a path to screenwriting that makes space for reflection critique and exploration Structured around five specific writing assignments each assignment supports the writer forward incrementally

by focusing on a specific set of craft elements needed to then move them on to the next. A key value of the assignments is that they are not exercises but steps in the development of the writer's own screenplay. By using this book, readers can both receive meaningful feedback on their own project and learn to give insightful, focused critiques of their fellow writer's work. Rather than offering craft as a to-do list that promises successful scripts, this book reimagines craft as tools, not rules, empowering a writer to let their unique story dictate choices in order to support their work and honor their own voice. This book is ideal for students and lecturers of screenwriting groups of writers looking to form their own workshops and aspiring professionals wanting to develop their craft. Handbook of Child Behavior Therapy T. Stuart Watson, Frank M.

Gresham, 2013-06-29 The genesis of this book occurred several years ago, providing readers with not only the what to do of child behavior therapy but the how to do it, as in Seattle on the veranda of a Chilean cafe overlooking Pike's Place Market during a National Association of School Psychologists conference. We were in the clinical decision-making process from identifying a problem to evaluating the effectiveness of a discussion along with several other behavioral school psychologists. How the field of child behavior chosen intervention. One of the difficulties in assembling an edited analysis and therapy has experienced rapid growth over the past forty years, but lamenting that books in this area are ensuring a high degree of continuity and the area did not reflect the advancements made in the similarity between chapters without infringing on assessment and treatment of a wide variety of problems. The individual writing style of the authors. This problem is evidenced by children. That is not to say that there are no good books available to the child. We provided the authors with an outline to use. Behavior therapist. In fact, most readers of this book as a guide as they prepared their manuscripts. The undoubtedly have bookshelves lined with noteworthy. The operative word here is guide. Approaches to Assessment that Enhance Learning in Higher Education Stylianos

Hatzipanagos, Rebecca Rochon, 2014-10-10 This book addresses the need to diversify mainstream forms of assessment currently used in Higher Education in order to re-establish the focus on the learning process. Making assessment central to student learning is about returning to what current research emphasises: the primary beneficiary of assessment should be the student. To achieve this in the assessment context, students and tutors must engage in a process of dialogue and feedback. It seems to be widely accepted that assessment succeeds when the learner monitors, identifies, and then is able to bridge the gap between current learning achievements and agreed goals. It is, however, more questionable whether adequate opportunities are given to students to be active participants in closing what has been termed the loop. Contributors to this book have responded in different ways to the challenge of enhancing learning through assessment, offering reasons for the lack of focus on learning within assessment processes as well as suggesting possible solutions. The chapters demonstrate a balance between innovation and practicality, drawing on the underpinning theories. The result is both rich in discussion and an extremely useful resource for practitioners. This book was originally published as a special issue of *Assessment Evaluation*.
